Co-ordinating Committee

Export of Servo Multiplier to Poland

Memorandum by the United Kingdom Delegation

The United Kingdom authorities have been asked to approve the export to Poland of the following:

Servo Multiplier

Type TJ725 \$1526 Item No. 1568(g)1

2. This instrument is required by the Nuclear Research Institute, Warsaw. It will be used, in conjunction with an Analogue computer already supplied for the simple simulation of nuclear reactor kinetics for demonstration and training purposes. Export of this computer has already been approved by the committee (COCOM Document 3617).

3. Her Majesty's Government wish to authorise the sale of this equipment to the Institute under the special Polish exceptions procedure, and the usual assurances against re-export will be obtained. Submission of this case has been delayed, whilst the Committee was in recess. In view of this, Her Majesty's Government would be grateful for views of Member Countries by September 17.

United Kingdom Delegation,
Paris.

September 3, 1959.
